### About the Provision

As part of our commitment to improving the lives of Muslim youth in Sandwell and Birmingham we develop various education provisions designed to raise the attainment and aspiration levels in its pupils and to maximise the contribution of learning to improved life skills.

Experienced artists will deliver art & crafts sessions in a fun and safe environment, as part of a structured 10 week program. It is designed to encourage interaction, communication and co-ordination. In the Arts and Crafts Club children explore art techniques through interesting topics with an Islamic theme. The idea is to teach children ranging from 5-10 years basic aspects of Islam through fun arts and crafts activities.

The program is designed to deliver theoretical and practical art sessions introducing a multitude of art mediums: painting, sculpture, printing, calligraphy and drawing to name just a few. Throughout the course children will use a variety of tools and techniques to express themselves in an imaginative way. Provisions such as the Art & Crafts Club promote a positive attitude towards learning. We believe that offering activities such as the Arts & Crafts Club will not only boost academic performance, but also foster the children's creative thinking and sense of expression.
